

Make CCTV cameras
mandatory for
slaughterhouses.

Please sign EDM 153.

Dear _____ **MP**

I am writing to ask you to sign EDM 153 in support of mandatory CCTV for slaughterhouses.

Animal Aid's investigations found that nine out of ten randomly chosen slaughterhouses broke animal welfare laws. Animals were kicked, punched, beaten, stamped on, burned with cigarettes, goaded, dragged by their ears and tails, and 'punished' with electrified tongs.

Independently monitored CCTV cameras could deter these abuses, help with staff training and retraining and provide independent evidence for prosecutions.

A 2014 YouGov poll found that 76 per cent of the public supports mandatory CCTV for slaughterhouses with independent monitoring of the footage.

Please show your support for effective slaughterhouse regulation.

Please sign EDM 153.
